Abstract	x

Chapter 1: Introduction

1.1. Introduction	01
1.2. Background and rationale of the study	06
1.3. Communicative Language teaching in Sri Lanka	15
1.4. Speaking Skill and ELT at Universities in Sri Lanka	18
1.5. Social aspects of English in Sri Lanka	27
1.6. Statement of the problem	31
1.7. Significance of the study	31
1.8. Aim of the study	35
1.9. Research questions	35
1.10. Objectives of the study	36
1.11. Limitations of the study	36
1.12. Overview of the chapters	37

Chapter 2: Literature Review

2.1. Introduction	39
2.2 Task-Based Language Teaching	40
2.2.1 Task and its characteristics	42

2.2.2	Willis's Lesson framework	48
2.2.3	Defining speaking	54
2.2.4	The advantages of TBLT in teaching speech	54
2.3	Approaches to Research on tasks	56
2.3.1	A psycholinguistic approach	57
2.3.2	A social interactive approach	59
2.3.3	Cognitive perspective	61
2.3.4	Focused tasks	63
2.4	Theoretical Background	65
2.4.1	Theoretical rationale of TBLT	66
2.4.2	PPP as an approach and a method	70
2.4.3	Task-Based Language Teaching and syllabus design	71
2.4.4	Experiential Learning and Task-Based Language Teaching	73
2.4.5	The Experiential Learning Cycle	75
2.4.6	Experiential Learning Styles	76
2.4.7	Experiential Second Language Learning Model	77
2.4.8	The 5 E's: Engage, Explore, Explain, Elaborate & Evaluate	80
2.5	Implementation of TBLT	83
2.6	Previous research on TBLT	84
2.7	Research Gap	88

Chapter 3: Methodology

3.1	Introduction	91
3.2	Design and method	93
3.3	Procedure	94

3.4	Research participants	96
3.5	Teachers	97
3.6	Lesson materials	98
3.7	Instruments used	101
3.7.1	Pretest and Posttest	101
3.7.2	The structure of the Pre-test and posttest	102
3.7.3	Questionnaire	103
3.7.4	Focus group interviews	105
3.7.5	Classroom observation	106
3.8	Validity and reliability	108
3.8.1	Validity	109
3.8.2	Reliability	110
3.9	Ethical considerations	111
3.10	Summary	112

Chapter 4: Results and Discussion

4.1	Introduction	113
4.2	Research Question 01	113
4.3	Research Question 02	119
4.3.1	Motivation	120
4.3.2	Interesting tasks and task involvement	121
4.3.3	Interesting themes and willingness to do similar tasks again	122
4.3.4	Opportunities to speak in English	124
4.3.5	‘Forgetting’ language learning mentality	125
4.3.6	Learner’s interests	125

4.3.7	Standard language ideology and fear	126
4.3.8	Speaking in mother tongue and English	128
4.4	Learning based on tasks	129
4.4.1	Focus on ‘form’	130
4.4.2	Authentic tasks and imaginary tasks	132
4.4.3	Language focus	133
4.5	Research Question 03	135
4.5.1	Teachers’ perception	135
4.5.2	Fear and lack of motivation	139
4.5.3	Effects of interesting tasks	140
4.5.4	Model for developing task-based lessons	142
4.6	Summary	143

Chapter 5: Conclusion

5.1	Introduction	144
5.2	Original contribution to knowledge	144
5.3	Implications	145
5.4	Recommendations	151
5.5	Limitations and suggestions for future research	152
5.6	Personal Reflection	154

Acknowledgement

This MPhil work has been a journey into knowledge and learning, which I believe would not have reached completion without the support of the people whom I thank below. I owe profound gratitude to my supervisor, Dr Lalith Ananda of the Department of English and Linguistics of the University of Sri Jaywardenepura not only for his critical and thoughtful guidance but also for his kindness throughout the two years of study, without whose assistance, this thesis would not have been possible. I am also really grateful to Professor Hemanthi Ranasinghe, Dean of the Faculty of Graduate Studies, who made a timely decision to conduct the certificate course in Research Methodology and Academic Writing for research students and to the other staff members, especially the registrar and Ms Nimali of the FGS office. I am really indebted to Ms Chakkrangi Dahanayake whose contribution as a teacher throughout this study is invaluable. I also wish to thank Ms Wasana, Ms Nethu and Ms Navoda for helping me conduct the pretests and posttests of the research and Ms Ann and Mr Sudaraka who helped me with statistical analysis. I would also like to express my heartfelt thanks to the teachers and students who participated in my research for their generous time. I sincerely thank Mr KSGS Nishantha, Head of the ELTU and Mr Palitha Amaraweera, senior lecturer from the Department of Geography for signing as guarantors for my study leave, which undoubtedly helped me do the research successfully. My sincere thanks also go to Prof. P. Jayantha, Dean of the Faculty of Science for granting me permission to carry out my research at the Faculty. Last but not least, I should also thank my wife Sandya for being a source of encouragement in all my academic pursuits.

Ruwan Gunawardane, ELTU, University of Ruhuna

The Effectiveness of Task-Based Activities in Enhancing the Speaking Skill of English as a Second Language Learners.

Ruwan Gunawardane

ABSTRACT

The present study aimed to find out the effectiveness of TBLT to see whether this particular approach could bring about productive results in relation to the Science students of the University of Ruhuna, Sri Lanka. When a graduate passes out from a university in Sri Lanka, he or she has learned English as a second language in both the school system and the university system for more than one and a half decades. Nevertheless, a general complaint often made regarding these graduates is their poor language competence, notably, oral communication skills. The causes of this problem are attributed to many issues and it has even resulted in graduates' unemployment.

The researcher being a university teacher of English noticed that Task-Based Language Teaching (TBLT) is very popular in various contexts of the world and it has now become theoretically well-established. To this end, the researcher carried out an empirical investigation at the Faculty of Science of the University of Ruhuna, taking 60 first year undergraduates as the sample. To homogenize the participants' level in terms of their knowledge of English, the students who scored average marks (45-55 marks) for the placement test of the Intensive course in English were considered for the study. Then, the students were randomly divided into two groups namely the Experimental Group that received instruction in TBLT approach and the Control Group that received instruction in Presentation, Practice, Production (PPP) approach. Each group was exposed to 30 hours of instruction and the study was carried out over a period of 15

weeks. The research instruments in this study included a pretest, a posttest, questionnaires, interviews and classroom observation.

The pretest and the posttest were conducted to analyze the students' speaking skill and they were given marks on the IELTS band descriptors. The data obtained from the tests and the questionnaires were statistically analyzed. The data from the interviews and classroom observations were qualitatively analyzed. The findings from the posttest showed a statistically significant difference in the mean scores, with the Experimental Group showing much better progress compared to the Control group in terms of enhancing the speaking skill. In addition, the qualitative results indicated that the teachers and students had a greater preference to TBLT and that it can immensely help the students improve their speaking skill.
